EDUCATION

The Ohio State University

Bachelor of Science in Computer & Information Science, Minor in Math

Columbus, OH

Expected April 2028

SKILLS AND CERTIFICATIONS

- **Certifications:** CompTIA Security+, PNPT, CSXF
- **Programming Languages:** C, C++, Python, Bash, Assembly (ARM/AArch64, x86/x64), Java, C#
- **Reverse Engineering:** Ghidra, GDB, static/dynamic analysis, binary analysis
- **Systems:** Linux, Docker, QEMU, Git, embedded systems
- **Security:** Wireshark, Burp Suite, Nmap, BloodHound, Responder

EXPERIENCE & SECURITY RESEARCH

Reverse Engineering & Vulnerability Analysis Intern

Battelle

May 2026 – Present

Columbus, OH

- Perform reverse engineering and vulnerability analysis of embedded systems to support research tooling and automation
- Conduct static and dynamic analysis of embedded software using Ghidra and GDB to identify potential vulnerabilities

Undergraduate Vulnerability Researcher

OSU ICDT

January 2026 – Present

Columbus, OH

- Analyzed and documented 80+ CVEs across vulnerable containerized web applications to support cybersecurity research for the Amazon Nova AI competition
- Deployed and tested vulnerable Docker environments to reproduce CVEs and evaluate vulnerability behavior and exploitation techniques

Cyber Security Threat Intelligence Intern

Cyber Security Forum Initiative (CSFI)

Sep. 2025 – December 2025

Remote

- Analyzed foreign cyber threats and produced intelligence assessments in response to cybersecurity RFIs

Cyber Operations Intern — Gov Contractor

Griffiss Institute

June 2025 – August 2025

Rome, NY

- Researched cross-domain system architectures using ARM CCA, seL4, Docker, and Linux for DoD cybersecurity applications
- Participated in timed Blue Edge real world offensive security cyber operation exercises including a 48 hour capstone

Wright Scholar Intern

Air Force Research Lab (AFRL) Headquarters

June 2023 – August 2023, June 2024 – August 2024

Dayton, OH

- Developed C#/Unity simulation systems supporting AFRL and AFLCMC research in VR experimentation and aerial-refueling automation

CTF COMPETITIONS

WICYS-OCRI CTF 2026: 1st Place

April 2026

ERAU-NASA-NSF CTF 2026: 1st Place out of 26 Universities

April 2026

Buckeye CTF 2025: 3rd Place

November 2025

VICEROY Symposium CTF 2025: 1st Place

March 2025

HONORS

US Cyber Team Combine

June 2026 – Present

2025 ISACA Cybersecurity Fellow

Awarded January 2025

VICEROY Scholar

October 2024 – Present
